### **DETAILED ACTION**

1. This action is in response to the amendment filed 09/14/2005. Claims 1-14 and 19-29 have been cancelled.

### ***Allowable Subject Matter***

2. Claims 15-18 are allowed.
3. The following is an examiner's statement of reasons for allowance. The present invention is directed to a method of accessing digital content delivered to a user over a network utilizing smart cards. More specifically, independent claim 15 identifies the uniquely distinct features: extracting a cipher from said digital media content and sending said cipher to a second smart card; generating a new cipher with the second smart card and sending said new cipher from the second smart card to a first smart card; obtaining a first decryption key in response to said new cipher using said first smart card, said decryption key being transmitted from said first smart card to said electronic device; obtaining a second decryption key using said second smart card, said second decryption key being transmitted from said second smart card to said electronic device; and using the first and second decryption keys to decrypt the digital content. The closest prior art, Tsuria et al. (6,499,103), discloses a method for accessing digital content delivered to a user over a network using two smart cards. However, Tsuria does not teach teaches generating a new cipher with the second smart card and sending said new cipher from the second smart card to a first smart card. Another prior

art, Chaney (6,035,037), discloses a method for processing video signal using serially connected smart cards, but Chaney does not teach decryption of data. The prior art, taken either singly or in combination, fails to anticipate or fairly suggest the limitations of applicant's independent claim, in such a manner that a rejection under 35 U.S.C 102 or 103 would be proper. The claimed invention is therefore considered to be in condition for allowance as being novel and nonobvious over prior art..

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
